WORK EXPERIENCE

2020 – Current Date – Executive Director of ODISSEI & Associate Professor, Erasmus University Rotterdam

In this position I have overseen the strategic development of ODISSEI, the Dutch National Infrastructure for Social Science. Since 2020, I have also been appointed as an Associate Professor at Erasmus University Rotterdam where I currently supervise five PhD students and collaborate on a number of research projects in the general field of family sociology.

2013 - 2020 – Generations and Gender Programme, Deputy Director

As Deputy Director of the Generations and Gender Programme I oversaw the day-to-day management of a cross-national longitudinal social survey across 19 countries. The main responsibilities included overseeing data collection, the harmonisation of data, ensuring data quality, instigating dissemination activities, and writing high level policy briefs on the findings of the research programme as well as drafting strategic plans for the infrastructure.

2015 - 2017 – Erasmus University Rotterdam, Post-Doc (Part-Time)

Post-Doctorate researcher on the project 'Family Dynamics and the Life course in Comparative Perspective' which investigated differences in family dynamics in later life in Europe, China and the US. This was part of a collaboration between Erasmus University Rotterdam, Oxford University, Princeton University, Peking University and Chemnitz Technical University. My analysis focused on later life relationships between parents and children in China and Europe.
